Coreless Tube = TCTC

## EDM Fluid

Hales EDM5 Fluid is a high-quality solution with all the benefits that make it a superior product, for example: Low evaporation, crystal clear, odourless, high flash point, low viscosity and competitively priced.

EDM5 is user-friendly to the operator.

### Features

#### High Flash Point

High flash point and fire point minimises the risk of fire, increasing operator safety.

#### Superior Thermal Stability

Ensures low evaporation, long filter and fluid life, leading to reduced costs.

#### Excellent Filterability

Allows rapid flushing of erosion debris, which, combined with low viscosity, enables high erosion rates with excellent surface finish.

#### Crystal Clear And Low Odour

This clear solution gives great workpiece visibility and extremely low odour, providing a more pleasant working environment.
